## PROFILE

I am a passionate Frontend Developer specializing in React.js, the powerhouse of modern web development. Strong problem-solving abilities, adept at architecting solutions that meet both functional and aesthetic requirements. Collaborative team player, always ready to contribute ideas and support teammates to achieve project goals.

## WORK EXPERIENCE

Junior frontend developer, Monato

2023 - 2024

- Developed and maintained a Single Page Application (SPA) using JavaScript and React.
- Built professional-grade components and pages with ShadCN UI, Tailwind CSS, using React JS with Vite.
- Handled QA tasks to ensure quality and performance, and contributed to UI design.

Frontend developer, CityCoders

2022 - 2023

- Worked with local businesses to deliver dynamic and engaging online platforms using React JS with Vite.
- Maintained and enhanced websites for optimal performance and user experience.
- Implemented responsive designs and intuitive interfaces, boosting traffic and customer engagement.

Personal/Participated projects

- Website for watches: A catalog application that utilizes a database of wristwatches and presents them as a catalog. My contribution to this project was primarily focused on the service layer and implementing functionality, and I also contributed to the data layer. Link to the project: [GitHub](#)
- Application aims to simplify the process of listing cars for sale with its user-friendly platform. Sellers can effortlessly upload photos, provide detailed descriptions, and set pricing parameters through an intuitive interface: [GitHub](#)
